

Salve Parens,

There is much to discuss Gaius Marius and I hope to convince some of my new Soldades that they should accompany me to visit you and the other members of the Covenant.

I take it from your letter that a visit would be of greater benefit than would otherwise accompany a visit to my Covenant of apprenticeship. Maga Zebeeba I know plans to visit the Covenants of our Tribunal and has expressed some interest in the Iberian Tribunal so may take little convincing. The others though, a Magus of Tytalus and a Merenita may take more convincing.

I have just written a letter to Magnus Gregorius scholae Bonisagi of the Covenant Domus Liber. I know that a visit to you will answer my last questions so I ask these in the hope that the answers to these will be written and sent to me.

Have you met Magnus Gregorius or any other Magi from the Covenant of Domus Liber? And have you read any of the Summae or Tractati that they have produced. I would be interested in any of your insights on their works as I have purchased a Summa on Muto from them and plan on writing a review of this work in the future and could forward this to you should you be interested.

There are many challenges here Parens, amongst the Magi, the wilderness and the people who war across these lands. Nonetheless, I plan to visit you as soon as possible.

Magus Quintus Sertorius Sulla
